

## CVW Cleantech Announces Q3 2023 Results

CALGARY, ALBERTA – (November 15, 2023) – CVW CleanTech Inc. (the "Company" or "CVW CleanTech") (TSX-V: CVW) is pleased to announce its operating and financial results for the three and nine months ended September 30, 2023. For complete details, please refer to the Condensed Interim Financial Statements and associated Management Discussion and Analysis for the third quarter of 2023, available on SEDAR+: [www.sedarplus.com](http://www.sedarplus.com) or on the Company's website: [www.CVWCleanTech.com](http://www.CVWCleanTech.com).

### Highlights

- Cash on hand as at September 30, 2023 was \$6.24 million. The Company's capital position and liquidity has remained relatively consistent throughout 2023.
- Net loss for the three month period ended September 30, 2023 was \$1,165,000 and the net loss per share was \$0.01 (basic and diluted) for the same period. Non-cash charges recognized for stock-based compensation expense totaled \$666,000 for the three month period ended September 30, 2023.
- Net loss for the nine month period ended September 30, 2023 was \$3,264,000 and the net loss per share was \$0.03 (basic and diluted) for the same period. Non-cash charges recognized for stock-based compensation expense totaled \$1,799,000 for the nine month period ended September 30, 2023.

On September 12, 2023 the Company held a virtual Annual and Special Meeting of Shareholders. Both the presentation and webcast are available on the Company's website which can be accessed using the following link: <https://cvwcleantech.com/investors/investor-overview/#presentations>.

The Company continues to engage with all the oil sands mining operators to highlight our technology's alignment with their business and ESG objectives. A key priority for the business is to ensure that commercial scale deployment of the Creating Value from Waste™ ("CVW™") technology in the oil sands mining sector moves ahead in a timely fashion and delivers value to shareholders. As such the Company released its Process and Technology Overview in the quarter which details multiple development approaches to balance upfront capital costs and economic benefits. The Process and Technology Overview

can be found using the following link: <https://cvwcleantech.com/technology/process-and-technology-overview/>.

CVW CleanTech's CEO, Akshay Dubey, said: "We have taken a fresh approach to stakeholder engagement, being very proactive in building support behind the development of our first CVW™ project. We have an active dialogue with a number of commercial lenders providing the Company with a high degree of certainty around financing a potential CVW™ implementation. We are also in the early stages of meeting with Indigenous groups in the region and are excited about the opportunity of these groups becoming advocates and partners in our technology."

Mr. Dubey continued "These efforts are in addition to our engagement with large multinational insurance providers to secure technology deployment insurance, and ongoing discussions with potential engineering, procurement, and construction partners to understand their capabilities and economic risk sharing models, reducing the risk to the Company and its operating partners. These comprehensive efforts will create positive momentum behind commercialization of the Company's CVW™ technology."

The Company continues to review other opportunities to create shareholder value. Diversifying, while retaining a focus on clean technology and the role it plays within decarbonization and the circular economy, has the potential to accelerate the Company's growth across multiple sectors and geographies while transforming the company into a leader in the clean technology space.

#### ***About CVW CleanTech Inc.***

*CVW CleanTech Inc. is a clean technology innovator, working to develop sustainable technology solutions. The Company has developed a suite of technologies called Creating Value from Waste™ that recovers bitumen, solvents, critical minerals and water from oil sands froth treatment tailings while significantly reducing their emissions and enhancing tailings management.*

#### **Disclosure regarding forward-looking information**

*This news release contains forward-looking statements and information within the meaning of applicable Canadian securities laws (collectively, "forward-looking information") that reflect the current expectations of management about the future results, performance, achievements, prospects, or opportunities for CVW CleanTech.*

*Forward-looking statements are frequently, but not always, identified by words such as “expects”, “anticipates”, “believes”, “intends”, “estimates”, “potential”, “possible” and similar expressions, or statements that events, conditions or results “will”, “may”, “could” or “should” occur or be achieved. The forward-looking statements may include statements regarding the results of deployment of CVW™ technologies and its business plan, potential diversification opportunities and other future opportunities, statements regarding the benefits and implications of the implementation of our technologies or other statements that are not statements of fact. Forward-looking statements are statements about the future and are inherently uncertain, and actual achievements of the Company may differ materially from those reflected in forward-looking statements due to a variety of risks, uncertainties and other factors. For the reasons set forth above, investors should not place undue reliance on forward-looking statements. Important factors that could cause actual results to differ materially from the Company’s expectations include: uncertainties in the timing and receipt of regulatory and exchange approvals; uncertainties involved in disputes and litigation; fluctuations in interest rates, commodity prices, currency exchange rates, and other financial conditions, and the resultant effect on viability of investments; changes in the availability, and cost, of technical labour required for our business; price escalation and/ or inflationary pressures affecting the cost of equipment and material required to commercialize our projects; the uncertainty of estimates of capital and operating costs; the need to obtain additional financing and uncertainty as to the availability and terms of future financing; the impact on the Company of increasing inflation; and other risks and uncertainties disclosed in other information released by the Company from time to time and filed with the appropriate regulatory agencies.*

*All forward looking statements are based on the Company’s beliefs and assumptions which are based on information available at the time these assumptions are made. The Company has made the following assumptions in relation to the forward-looking statements in this press release: the expected environmental and economic benefits to be achieved from CVW™ technologies; the ability of the Company to successfully access various government funding programs; the details of government funding programs and that such programs will be implemented (and not change) as expected; that the Company will continue to be able to protect its intellectual property; assumptions as to various market and commercial opportunities for the Company and its technologies; and the ability of the Company to continue to develop and commercialize its technologies. The forward-looking statements contained herein are as of the date set out above and are subject to change after this date, and the Company assumes no obligation to publicly update or revise the statements to reflect new events or circumstances, except as may be required pursuant to applicable laws.*

*Although management believes that the expectations represented by such forward-looking information or statements are reasonable, there is significant risk that the forward-looking information or statements may not be achieved, and the underlying assumptions thereto will not prove to be accurate. Actual results or events could differ materially from the plans, intentions and expectations expressed or implied in any forward-looking information or statements, including the underlying assumptions thereto, as a result of numerous risks, uncertainties and factors including: failure to obtain regulatory approvals; the possibility that opportunities will arise that require more cash than the Company has or can reasonably obtain; dependence on key personnel; dependence on corporate collaborations; potential delays; uncertainties related to early stage of technology and product development; uncertainties as to fluctuation of the stock market; uncertainties as to future expense levels and the possibility of unanticipated costs or expenses or cost overruns; and other risks and uncertainties which may not be described herein.*
